## Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordanc with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invnetion to which the claims must be restricted.

Group I, claims 24-42, drawn to a sensor.

Group II, claims 43-47, drawn to a method of manufacture.

- 2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical feature. The technical feature of uniting solid electrolyte layers, one of which serving as a partition between a measurement gas chamber and a reference gas chamber, by firing green sheets together is old, as disclosed by Ep 0678740 at col. 11, lines 27-38.
- 3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
- 4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently

named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required uner 37 CFR 1.17(i).

5. The examiner can be reached at 703-308-3329. His supervisor Jill Warden can be reached at 703-308-4037. Any general inquiry should be directed to the receptionist at 703-308-0661. A fax number for TC 1700 is 703-872-9310.
